Harrison Brown

Atlanta, GA 30322 | harrisonbb11@gmail.com | linkedin.com/in/hbrown9 | github.com/hbrown88

Education

Georgia Institute of Technology (GT) Atlanta, GA

Bachelor of Science in Computer Science; GPA: 3.67/4.00 *Expected Graduation: Fall 2028*

Technical Skills

Programming Languages and Technologies: Java, JUnit, Python, C#, C, Assembly, AWS, PyTorch, Bash/Zsh, TypeScript, Git, Flutter/Dart, JSON, React, XML, Postman, PostgreSQL, Jupyter Notebooks, iOS, Docker, Speckit, Shopify
Concentrations: Artificial Intelligence & Systems and Architecture

Work Experience

Cox Automotive May 2026 – Aug 2026

Software Engineering Intern *Atlanta, GA*

- Designed and developed a full-stack inventory visualization tool for vehicle logistics, allowing engineers to efficiently monitor VINs, easily detect anomalies, and access live vehicle data, ultimately improving defect handling by 25%.
- Architected a scalable, AI-assisted inventory management (C, SQL, React, TypeScript) adopted by 20 team members, reducing prototyping and refactoring time by %50
- Presented technical project demos and progress updates to an audience of 200+, including leadership and cross-functional teams, ensuring engineering solutions aligned with key business objectives.

Yinan Zhao Extern Jun 2025 – Aug 2025

Equity Research Intern *Remote*

- Conducted in-depth analysis of Himax's 20-F filing, identifying key performance indicators and growth drivers to support equity valuation and investment recommendations.
- Researched correlations between macroeconomic events and equity prices, enhancing valuation models and accurately projecting stock price stability (±3% range) for Q3 2025.

Fulton County Schools Aug 2022 – Aug 2023

Information Technology Intern *Roswell, GA*

- Led a team of 5 interns to remove malware, resolve software issues, and repair school-issued devices, ensuring all equipment was ready for the upcoming academic year.
- Reimaged 10,000+ computers across two summer seasons, creating a surplus of deployment-ready devices both school years.

Assets Edge Aug 2024 – May 2025

E-Commerce Manager Intern *Remote*

- Analyzed customer click-and-purchase data to optimize Shopify website layout and product listings, resulting in a 100% increase in customer traffic and improved alignment with user preferences.
- Developed Zsh shell scripts to accelerate file management and diagnostics tasks, improving the e-commerce team's backend workflows.

Programming Projects

ScriptLink 2026

- Architected a cross-platform Flutter/Dart app (iOS, Android, macOS) enabling users to map Bible verses as an interactive graph, link nodes with 17 color-coded connector types, and manage rich-text notes.
- Integrated the API.Bible REST API for on-demand verse fetching across 3 translations (NIV, NKJV, NLT), eliminating the need for a bundled multi-translation dataset.
- Backed the app with a 350+ test suite (unit + widget) across ˜10K lines of Dart; iterated through Java and C# backend prototypes before consolidating on a single-codebase Flutter architecture.
- Won 3rd place out of 30+ teams at the VibeATL Hackathon, presenting ScriptLink as a productivity tool for churches.

Apple Music Album Listens 2025

- Engineered a Java command-line application to parse and analyze Apple Music listening data, revealing 100+ key trends that provide insights into user consumption patterns.
- Processed XML export files via DOM parsing, aggregating detailed album play counts and filtering results against user-defined thresholds to improve data processing speed by 2x.

Leadership and Community Engagement

GT Black Student Computing Organization, *Public Relations Chair* 2026 – present

- Established and managed corporate partnerships and technical programming with 5 companies including Walmart, Cox Automotive, Deloitte, Morgan Stanley, and The Trade Desk.

GT Student Government Association, *Computer Science Representative* 2026 – present

GT Public Speaking Organization, *Logistics Coordinator* 2026 – present

GT Cultural and Diversity Affairs Committee, *Member* 2026 – present

GT Society of Black Engineers, *Academic Excellence Committee Member* 2025 – present

Honors & Certifications

- CodePath — AI201: Applications of AI Engineering (2026)
- Lean Six Sigma Yellow Belt (2026)
- VibeATL Hackathon 3rd Place Winner (2026)
- 2024 Fulton County Schools Tech Competition 3rd Place Winner (Category: Project Programming)
- 2025 Fulton County Schools Tech Competition 3rd Place Winner (Category: Multimedia Applications)
